Enclosed is my check/M.O. for the amount circled below.
Please start sending me the Certified Coin Dealer newsletter for:
6 Months $65.00 — 1 Year $117.00 — 2 Years $193.00
Name _____
Address _____
City _____ State _____ Zip _____

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over 200,000 coins with a market value over $1.1 billion. Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

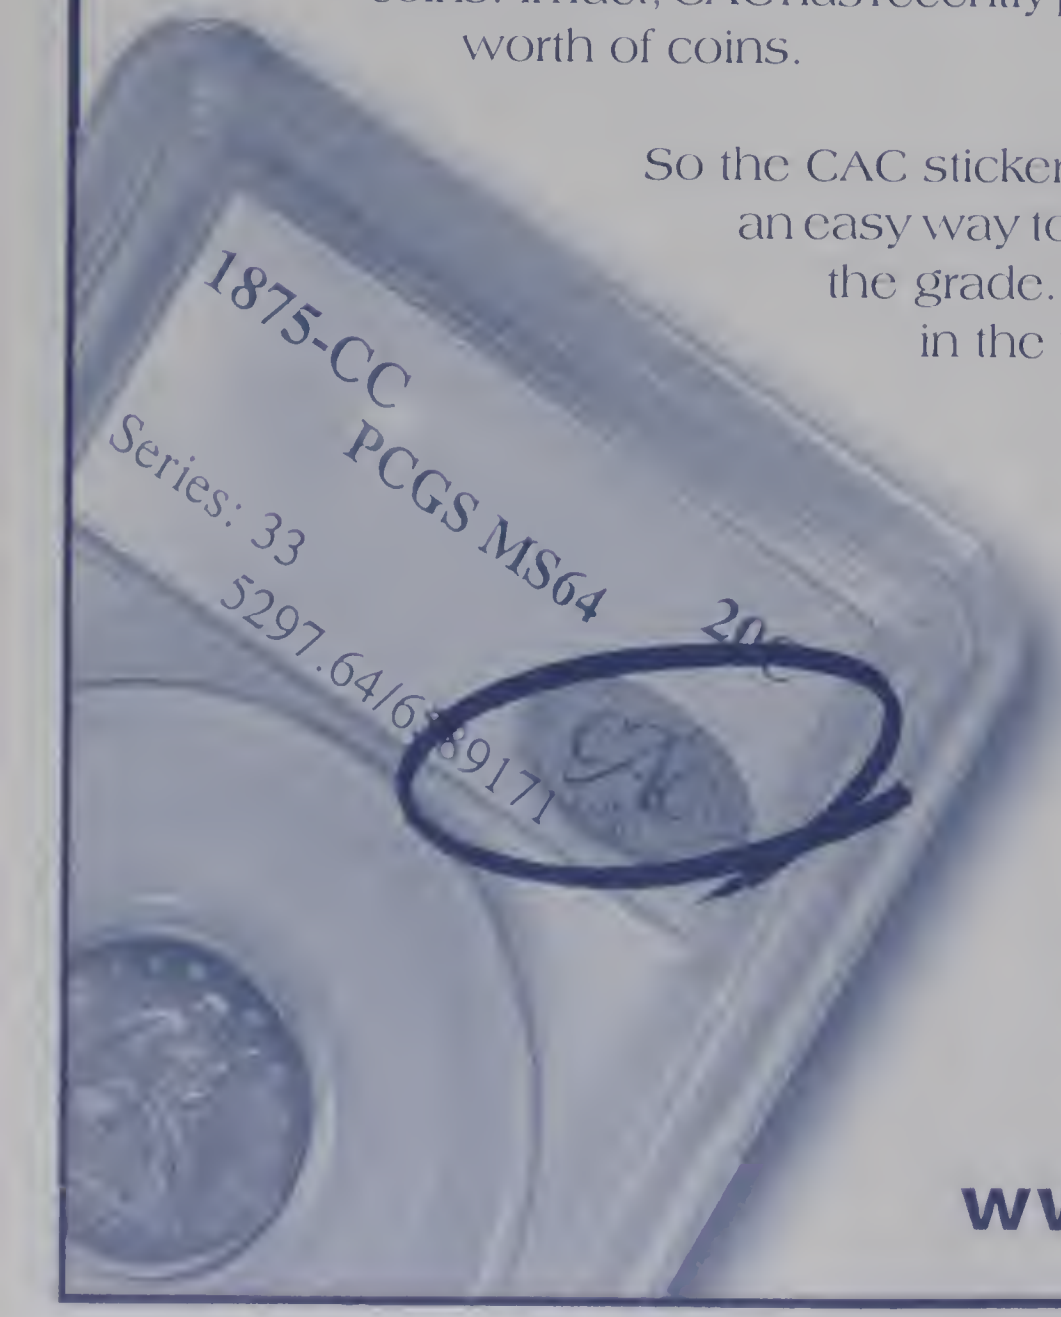
^ 250,000

$1.3 billion

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $175,000,000 worth of coins.

^ $200,000,000

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.



The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC®

"Because Confidence is Priceless"

Every Numismatic Library needs a complete set of the

COIN DEALER newsletter family of publications

Order Online www.greysheet.com

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - $2.50 each • 11-25 issues - $2.00 each • 26 & over - $1.50 each

Or, you can purchase ***complete sets*** of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter** (*Greysheet*)
from June 14, 1963 to December 17, 2010, now includes 2,424 issues.
At $1.50 each this would normally cost $3,636, but a complete set
is only ..... **$2,425.**

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2010, now includes 413 issues. At $1.50
each this would normally cost $619.50, but a complete set is only .... **$480.**

Complete set of the **CDN Quarterlies**
from January 1992, to December 2010, now includes 228 issues, a
complete set is only ..... **$250.**

Combined weekly **CDN** (*Greysheet*), **Monthly Supplement & Quarterlies**
now includes 3,065 issues, and extra savings at only ..... **$3,025.**

Complete set of the weekly **Certified Coin Dealer newsletter** (*Bluesheet*)
from August 22, 1986 to December 17, 2010, now includes 1,202 issues.
At $1.50 each this would normally cost $1,803, but a complete set
is only ..... **$1,260.**

Complete set of the monthly **Currency Dealer newsletter** (*Greensheet*)
from September 1980 to December 2010, now includes 364 issues.
At $1.50 each this would normally cost $546, but a complete set
is only ..... **$430.**

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 38 | September 23, 2011 | Single copy price $4.00

Generic Dollars Mixed Gold Spot Down $66

Gold has dropped sharply to $1,739, a fall of $66 from its prior close. This represents the third largest day-to-day dollar dip since January 22, 1980 when the yellow metal collapsed $155. One only has to go back to August 24 of this year to see yet another major single-day decline of $104, which is in fact the second largest since Gold's all-time high of $1,889. The Dow fell 391 points in the same time period as Gold's plummet. All this took place the day after the FED announced to keep the federal funds rate at 0 to ¼ percent on September 21.

Silver Commems have been well represented amongst the lots featured during the various major auctions that took place these past few weeks with high sell-through rates. Still, while prices realized for a handful of these lots were impressively strong, most Commem issues sold for amounts that were well short of current Bid. The Market columns reflect this auction activity and the discounted trades that have been most responsible for the declines and weakness in this segment. The second consecutive weekly decline in Bid for the Hawaiian in NGC MS65 leaves this issue now nearly 10% lower since the start of this month. Neither a PCGS nor an NGC graded Gold issue scored either a gain or a decline this week.

Volatility continues with downside pressure affecting generic MS63 Morgan Dollars, while positive momentum remained in play for several of their MS65 graded peers. But sight-unseen Bids for these issues are still moderately below those when the summer season began, and many better-date issues are merely recovering from their declines of weeks past. With the exception of the 1934-D in NGC MS63 posting a 6% decline, the Peace Dollars are taking a break from any real ups or downs. Next month's events, including the new Fall ANA Show in Pittsburg, October 13-15 and the Silver Dollar Expo in St. Charles, MO beginning on the 19th, may unleash some scarce and long not-seen Morgan and Peace material. Early Coppers remain popular with collectors, but NGC graded MS63BN Braided Hair Half Cents saw some disappointing auction results, thereby causing Bid to drop by 5%. Liberty Seated Half Dimes with Arrows in MS64 also fell a bit out of favor, losing as much as 13%, but the overall resilience of this segment is quite evident. Shield Nickels without Rays are down by 4% in NGC PR65, and this is the only issue affected by the mild weakness in this segment.

Gold Spot has declined to a level not seen since early August, and the commensurate declines in Bid for select generic Gold Type issues could trigger higher demand. Premiums over melt for much of this material remain at record low levels. See the chart below comparing sight-unseen Bid for the top 20 underperformers from three years ago when all the excitement centered around Gold Spot surpassing the $1,000 per ounce level and staying there for three consecutive days. Unexpectedly, Gold Spot is 72% higher from September 18, 2009, yet nearly half the issues covered here are lower.

Activity within the Mercury Dime segment appears quiet, yet multiple buyers still have visible sight-unseen Bids in place in hopes of acquiring material in quantity. Only the NGC graded 1945-S in MS67FB are reaching higher, as Bid added yet another $25 for the second straight week to post a two month total gain of over 40%. Late-date Fully Split Band designated issues in high grade with CAC stickers are now among the many sought-after items in the market. Buffalo Nickels may not be evoking much discussion about the coin market, but enthusiasts of this series certainly have reason to remain devoted. A PCGS graded 1927-D in MS64 fetched a hefty $2,070 at auction in Philadelphia. Two other early D-Mint issues graded by NGC, a 1918 in MS65 and 1919 in MS64, sold for $3,095 and $4,140, respectively. Current Bid support remains unshakable for every Buffalo issue in grades MS63 thru MS67 as extraordinary quality, low pop specimens are still able to stir up very aggressive Bidding when offered. Many late-date Walkers in MS63 thru MS65 are receding once again and quite a few of these issues now Bid at the same level as they did a few months ago. While the seasonal rally had minimal altering effect on early issues, no truly observant market participant can claim that the appeal and current demand for better key-date Walkers have been significantly diminished as such material deriving from this series has had astoundingly strong results at recent auctions.

PCGS parent company, Collectors Universe, recently purchased Coinflation.com for a reported $750K, consisting of $550,000 in cash and $200,000 in stock. The website shows melt value for circulated coinage, both past and present. Currently the Nickel has a base metal value of 6¢ while pre '82 Cents contain 2.5¢ of Copper.

PCGS — Professional Coin Grading Service, Newport Beach, CA (800) 447-8848

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Enclosed is my check/M.O. for the amount checked below.
Please start sending me the Certified Coin Dealer newsletter for:
☐ 6 Months $65.00 ☐ 1 Year $117.00 ☐ 2 Years $193.00
Name
Address
City State Zip

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *w*eek prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars will be listed monthly in a supplemental insert. CDN (*Greysheet*) Bids have always represented fully, deep mirror prooflike specimens.

Who Can Help You *DOUBLE* Your Bulk Business?

You're Looking at Him!

PCGS has yet again revolutionized the numismatic industry with two words – Bulk Certification. The PCGS Bulk Certification program enables dealers and collectors to submit high volumes of coins at discounted prices.

Miles Standish, creator of the program, knows more about Bulk Certification than anyone.

The Grading Standard for 25 Years

He can show you how to:

- Double your business
- Expand your market
- Design specific campaigns to target new markets with innovative ideas such as specialty flips and roll certification programs.

Find out how Miles can bulk up your business through PCGS Bulk Certification. Contact **(949) 922-0515** or sending an e-mail to **Mstandish@collectors.com**.

© 2011 Professional Coin Grading Service • A Division of Collectors Universe, Inc. • NASDAQ: CLCT • PCGS.com

MINT STATE TYPE COINS

Prices are for the most common dates. Better date coins usually bring more than the Bids of the most common issues listed herein. Bids listed for issues that trade infrequently are the last known.

UPDATE!

CAC Stickers Do Not Add Value!

Then why do CAC stickered coins bring a premium?

While it is true that CAC-verified coins bring a premium in the market, the "little green" sticker is not what adds the value. Truth is, with or without a CAC sticker, a quality coin will always bring a premium.

CAC has evaluated over 200,000 (^ 250,000) coins with a market value over $1.1 billion. ($1.3 billion) Only those coins which meet stringent standards for quality within a grade are awarded a sticker. That is why CAC stickered coins bring a premium - they are placed on only quality coins.

What's more, CAC is a powerful market maker for its stickered coins. In fact, CAC has recently purchased over $175,000,000 (^ $200,000,000) worth of coins.

So the CAC sticker does not add value - It is just an easy way to identify coins that are solid for the grade. And it gives you confidence in the value of a coin.

The CAC sticker doesn't add value, it just helps to identify a quality coin.

CAC®

Silver Sinks 37% From April Peak
High Hopes for New Fall ANA Show

The rare coin market is certainly charged at the moment, especially regarding precious metals. While much has been said about Gold's decline, Silver has really taken it on the chin percentage-wise. From a high point in late April of this year, the white metal was at $48.59 per ounce, and has since lost 37%, closing at $30.47. That's not to diminish Gold's plunge, having lost more than $100 in a single trading day on two occasions within the last month, and out of only three such occurrences ever, the first took place over 30 years ago.

This week's activity for Silver Commems resulted in only a few moderate Bid changes of no major significance. This segment remains soft as a glut of supply continues to overhang the market. At least one dealer is still offering this material at or below current wholesale levels, ignoring the high Bidders and selling to retail clients for less. Gold Commems are steady overall, though a pair of NGC MS66 issues are being shopped around at a discount, creating minus signs. Some incredibly beautiful Gold and Silver Commems are due to be auctioned off by Heritage during the new Fall ANA Show in Pittsburgh, October 13-15. Included in the sale are Gold and Silver Pan-Pac issues graded by NGC, including a $50 Octagonal in MS65, and a Silver Half Dollar in MS66 that will be featured along with a PCGS graded Hawaiian in MS66, a coin having a combined pop of 144 with only 9 finer.

Silver Spot is below where it was at the beginning of the year, negatively impacting several issues within Peace and Morgan Dollars. Even with all the declines, generics are still impressively higher than they were in early January. Sight-unseen Bids for Morgans are 15% higher in Gem, and more than 35% higher in MS61. Common Date Peace Dollars are up by 57% in MS61 and 25% higher in MS65. Also remember that these issues have declined slightly from their recent year-time high. Semi-key dates 1886-O and 1887/6-O have increased in MS61 and 62 with the NGC '86-O going up by 11% in MS62 as well as the '87/6-O increasing by 19% to a sight-unseen Bid of $800 for both NGC and PCGS slabs. An 1892-CC Morgan, graded MS66 by PCGS and CAC approved, is among the more popular Dollar lots featured by Heritage next month, and the Bidding action for this one of 34 combined pop coins, with only 4 finer, should be exuberant. Nine examples have been given the CAC green bean at this grade level, with only one stickered higher.

It's been a long time since such a diverse and high quality assortment of Mint State and Proof Type material has been made available as that due to be offered next month during Heritage's Pittsburgh ANA auction. Material of every denomination, featuring virtually every design and many varieties will be included amongst the extensive number of lots currently available for on-line Bidding.

The near 15% decline of Gold Spot from its all-time high hasn't been as much of a detriment to Gold Type issues as what might have been expected. While Gold Dollars and $2½ Liberty issues have been weakend considerably, Bids for MS63 and MS64 $5 Indians, for example, have actually risen by at least 8% since the beginning of the year, and MS61 thru MS65 Type III $20 Libs and Saints are still in positive territory for the year as well. Of course, more vulnerability throughout this segment is possible should Gold Spot continue to move lower.

Activity for Mercury Dimes can best be characterized as uneventful with only a single decline recorded; A 1945-D in NGC MS65FB succumbed to the effects of a poor price realized through an on-line auction, causing Bid to falter by 22%.

There appears to be a two-tier Walkers segment now. Early Mint State issues are in strong demand at current Bid levels, and the better-date issues are becoming increasingly difficult to locate in high Mint State grades. But sight-unseen Bids of late-date MS64 thru MS66 graded Walkers are again retreating due to disappointing on-line auction performance and discounted trading this week with many of these issues having dropped by as much as 13%.

Dealers are now planning to head off to Pittsburgh for the new fall ANA gala after attending the much more low-key PCGS members only show in Las Vegas which began September 28. Hopes are high for the Pennsylvania gathering with many collectors and dealers expressing optimism and excitement at the last Long Beach show. Heritage will serve as the official auction house for this inaugural ANA Fall National Money Show, beginning October 13 in Pittsburgh. We have listed several of the many highlights from the sale herein. Scotsman will conduct an auction in conjunction with the Silver Dollar Exposition being held October 19-22 in Saint Charles, MO, with online Bidding beginning October 3.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

Dealers Participating In Pittsburgh Generic Walkers Stumble

Hawaiian and Sesquicentennial Silver Commems in NGC MS65 bounced back to their previous levels of last month, as the former also makes comparable recoveries in MS63 and MS64. The path to a recovery was also taken by $2½ Pan Pacs in MS67, with Bid still having to advance another $150 to completely recoup its total decline from June. Generic Morgan Dollars in MS63 and MS65 are down 4% and 7%, respectively, for the week. However, a few NGC graded early Philly Mint Morgans in MS65 are advancing moderately to regain prior lost ground, and the 1921-D in NGC MS67, a really tough Type coin to find, its combined pop of just 10 with only 4 finer, now Bids slightly higher at $4,000. Generic Peace Dollars are bearing this segment's overall downward pressure to an even greater extent, as Bids in MS63 thru MS65 declined by as much as 15%. GSA Dollars in their original government plastic remain active and popular with dealers and collectors alike. As with NGC, ANACS is now offering a tamper evident, wraparound grading sticker (not guaranteed) for this material, if requested.

Mint State Capped Bust material appears quite hot again. Reeded Edge Capped Bust Half Dollars in PCGS MS65 climbed by a hefty 13% to a sight-unseen Bid of $13,500, a two and one half year high. Their NGC graded MS63 and MS64 peers also made advances sufficient to regain their Bids of early this year, as did Reduced Size Capped Bust Dimes and Quarters in MS65 and MS64, respectively. Indian Head Cents in PR66 Red fell a bit shy of market expectations this week resulting in lower Bids. While Bids for all other PCGS graded Proof Type material remained unchanged, some NGC graded issues picked up strength in the PR65 and PR66 columns. These include PR65 Shield Nickels, Barber Dimes and Three Cent Nickels, the latter of which advanced for the second straight week. Liberty Seated Dimes with Legend along with Barber Quarters, increased to regain their PR66 Bid levels of last month. A Barber Half graded NGC PR67 just traded for $5,300 sight-unseen through CCE while a Capped Bust Half in NGC MS65 changed hands blindly for $5,500 through CoinPlex. Virtually all Mint State Buffalo Nickels continue to hold firmly at current levels across the grading spectrum. Only the 1916-S in MS63 and 1938-D issues in PCGS MS66 suffered rather mild pullbacks. A 1926-S NGC MS66 issue, among the finest known, with a combined pop of only 3 coins with none finer, is already eliciting heated on-line Bidding reaction from those participating in the Heritage auction ending next week. Other scarce Buffalos up for auction include a 1913-S Type II in MS65, a 1914-D in MS66, and a 1918-S in MS65, all graded by PCGS and CAC approved. Poor on-line auction results within the Mercury Dime segment this week had a negative impact for three Merc issues. NGC graded examples of the 1920 in MS65 and 1944-D in MS66FB declined by 14%, while the 1943-D in PCGS MS65FB incurred a 16% loss.

The ball keeps dropping for common date Walkers, especially in MS65, now trading at levels not seen since before spring. This negativity, however, has not spilled over as much into the higher grade columns, as many of these issues tend to become less generic and less prone to being traded in volume. Key-date and early issues all appear immune to the downside pressure affecting this segment as of late. ANACS and ICG graded 1936-S MS67 issues are now blindly Bidding at least 12% higher since last month, with buyers paying $700 regardless of what the coin looks like. As Gold Spot has been varying between $1,600 and $1,650, Bids for many Gold Type issues continue to fluctuate within a very narrow range. Most material is still in heated demand at current Bid, especially in Gem. Bid for generic $2½ Liberty issues in NGC MS67 regained the $250 loss from two weeks ago, and $20 Saints in MS66 are still Bid $140 higher than they were during Gold Spot's peak last August. But a dramatic $1,000 reduction in Bid this week for $5 Liberty with Motto constitutes a 20% decline for these MS66 issues graded by PCGS.

PCGS will begin adding a Details grade—as opposed to a Net grade—to their Genuine holders in the next couple of weeks, if requested by the submitter. Details grades will not be numeric, but rather VF, XF, etc., and the problem will continue to be listed, such as cleaned, tooled, and so on. Up until June of 2008, PCGS would return such material unslabbed, ungraded, and in a "body bag". The new ANA Fall National Money Show will take place in Pittsburgh, October 13-15, with Heritage as the official auction house. Some dealers attending this event are just miles away, warming things up at the Peoples Right to Enjoy Show in Monroeville, which began October 7. Following the ANA event, the Silver Dollar Expo, with an auction by Scotsman, will kick off October 19 in Saint Charles, MO. We have included several highlights from this sale herein.

MERCURY DIMES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Vol. XXVI No. 41 | October 14, 2011 | Single copy price $4.00

Prooflike Dollars Perform Common Date Walkers Still Falling

Silver Commems are still trying to recuperate from the bargain bin sales and bulk discounts persisting within this segment, though on a smaller scale than in previous weeks. Roanokes in PCGS MS67, however, succumbed to more downward pressure as Bid fell by 18%. A dealer's discounted offering of a 1905 Lewis & Clark $1 in NGC MS63 resulted in a decline by as much as $240, but all other Gold Commems remain at their current levels.

Bids for select Morgan Dollars continue to fluctuate within a narrow range. Disappointing auction results forced some to soften up, despite their popularity, such as the 1878-S and 1921 in MS65. Select Prooflike Morgans got a major boost in Gem as one dealer ups his ante for the 1903 MS65PL to a sight-unseen Bid of $1,000. This infrequently traded coin is up over 100% for NGC while PCGS examples are 35% higher for this combined pop 59 coin. The last one to sell at public auction was back in February 2010 when it fetched $1,725. A strong Bid increase of 20% is noted for 1889 issues in MS65PL. Last year of issue 1921-D PL Morgans are up more moderately across-the-board, and 1921-S PL issues in MS63 and MS64 each advanced by $100 since last month. Other than the generic Peace Dollars, the pullback effect brought about a $35 drop for the 1934 in NGC MS65.

There is evident neutrality pervading both Mint State and Proof Type segments with neither an advance nor a decline to report. However, a few notable transactions took place via the dealer-to-dealer electronic trading networks this week including a 3¢ Nickel in NGC PR66, a Barber Half in PCGS MS65, a Walker in NGC PR67, and a Type 1 Proof Buffalo in NGC PR65. A better date 1878 20¢ Piece in PR65 sold sight-seen for $9,500. Recent auction results suggest that market participants are more quality than scarcity conscious with their Bidding behavior concerning Type material.

When an infusion of fresh, high-grade Mercury Dimes appears for the taking at auction or show venues, this segment responds positively. Five issues in NGC MS67FB are now sough-after at rather significantly higher sight-unseen Bids, including the 1939 and 1944 issues. All 1940-S issues in MS65FB and 1942-S issues in MS65FB and MS66FB are turning up the heat now as well, while the few declines were quite moderate. PCGS graded MS65 1945-S and 1947-D Walkers, both of which averted the Bid declines that riddled their late-date peers last week, are now lower as well. But the bulk of the downward correction trend within the Walker segment continues among late-date NGC MS66 issues, as these are now also subject to discounting. The 1942-S, with a combined pop of only 6 and none finer, now Bids $4,000 in NGC MS67, but is still miles away from the $75,000 sight-unseen offer one Southern California dealer is willing to pay for a PCGS example in like grade. The Fall ANA Heritage auction results are just starting to come in, and there is curiosity as to how those very rare and high quality Buffalo Nickel lots fared. Activity here within the sight-unseen arena is slow with reported transactions few and far between. A single decline was recorded this week for the 1937 in NGC MS66 now Bid $48. This is one of four such dates available for $50 or less in MS66 and relatively easy to obtain in large quantities.

Many Gold bugs are expressing disappointment that there has not yet been enough of an upward momentum phase in Gold Spot to raise Bids for generic Gold Type to the extent seen last summer. While declines are somewhat plentiful, they are relatively minor this week, and their cumulative effect can dampen confidence in and expectations for this segment. Gold Dollars appear to be stabilizing after many declines throughout much of the year.

The numismatic fraternity is currently busy at the new ANA Fall National Money Show in Pittsburgh. Heritage is serving as the official auction house for this gala. Scotsman will host an auction at the Silver Dollar and Rare Coin Expo set to take place October 19-22. NGC will be providing onsite grading at the show. PCGS will also be present accepting submissions for grading at their headquarters. Heritage will host a rare coin auction November 7-9 for the first time in their Beverly Hills office. Coming up November 17-20 is the Whitman Baltimore Expo. This show will feature an auction from Stack's Bowers featuring Part 1 of the Teich Family Collection, which has been in private vaults since the 1950s.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Now with NGC Auction Central access!

Introducing

The NGC Coin Explorer

Collectors and dealers alike will benefit from population figures, varieties, melt prices, prices realized, upcoming auction information, pricing data and overall demand — everything you need to make more informed decisions. It's the best of NGC's research tools, all on one page, and it's free!

Get started now! NGCcoin.com/Explorer

Full access to the NGC Census, VarietyPlus® and auction prices realized requires a paid membership in the NGC Collectors Society, starting at $39 a year.

NGC
Numismatic Guaranty Corporation

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 42 | October 21, 2011 | Single copy price $4.00

Sight-Unseen Bid Declines On The Rise Generic Gold Heads South

Bidders partaking in the Fall ANA Pittsburgh auction last week apparently cast aside any doubts or thoughts about the negativity that had recently suppressed the Silver Commem segment. Both PCGS and NGC graded issues, including the various municipality, statehood, Booker T. Washington, and Washington-Carver tribute issues in high-quality, realized impressively strong prices. Two Spanish Trail issues, for example, both graded MS67 by PCGS, each fetched well over $3,000. Quality and eye-appeal definitely were determinants in motivating Bidders to an aggressive level of action. A less dramatic but, nonetheless, decent show of support was seen for Gold Commems that were featured during the event.

Another round of ups and downs are appearing again this week for primarily generic Morgan and Peace Dollars. Although most Morgans did very well in the Pittsburgh sale, quite a few did not, as seen by the over 150 declines recorded this week. Several dozen examples even sold below what dealers are willing to pay sight-unseen. The majority were graded by NGC, selling for as much as 15% below visible sight-unseen Bid. Bid for 1882-S issues in PCGS MS66, among the generic favorites, fell by 7%, but remain up by more than 30% for the year. 1921-D Morgans in MS65 are slipping ever lower, losing another $25 this week, while their comparably graded PCGS Philly peers, for the second straight week, descended to consummate a two week loss of 15%. Some serious divergence is occurring among generic Peace Dollars in MS65 as PCGS slabs advance $2, now 25% higher than their NGC graded counterparts which took a dive of $20, or 16%. These Peace Dollars were Bidding sight-unseen at parity for as much as $160 four months ago.

Upon first glance, Mint State and Proof Type material appear almost equally stagnant in terms of choosing a course of direction. But if recent auction results serve as an indication for future movement, they clearly reveal positive motion. The Early Coppers and high-grade Capped Bust and Barber material of various denominations have remained popular crowd-pleasers at retail venues. Quality and scarcity, of course, are as important for material pertaining to these two segments as they are for material of any other, and the rarity factor still reigns supreme. This was seen just last week when an 1807 Draped Bust Quarter graded MS66 by NGC fetched $115,000, and by the $63,250 final Bid for a 1926 Standing Liberty Quarter graded MS67FH by PCGS, which has a combined pop of only 5 with none finer. Despite the economic recession and the sporadic ups and downs, there still is money available to fuel this coin market and Type can be a very powerful engine.

Two 1926-S Buffalos, one in PCGS MS64 and another in NGC MS66, performed strongly during the Pittsburgh sale last week as the former realized $21,850 and the latter kept the competition for it going until the final Bid call arrived at an amazing $115,000. The 1942-S and 1943-S in MS67 are now among the late-date Mercury Dime favorites by way of increases, while some of their MS66 graded peers are being discounted from bulk sale activity. A few noteworthy auction results included a 1942 and 1944-S, both graded MS67FB+, the latter CAC approved, realizing $863 and $978, respectively, during their auction session in Pittsburgh, while a 1944-D issue graded MS68FB by NGC raked in $805.

Common date Walkers are again settling back to lower levels, particularly NGC graded MS66 issues, subtracting yet more from their Bids that were lowered last week. Joining in on the descent was the 1937 issue in comparable grade, as many of the subsequent issues in MS66 are now trading $18-$20 lower from their levels of two months ago. Two popular Denver issues, the 1943-D and 1947-D in MS65, fell a bit out of favor during recent auction activities as well. Despite some apparent weakness, supporting sight-unseen Bids for most of the Walkers have remained at or near current levels enough to stave off any dramatic plunges.

Generic Gold Type in MS66 and MS67 is less subject but not immune to the fluctuations in Gold Spot, as has been evident these past several weeks. MS61 through MS65 material is inextricably affected by the swings, and more Bid declines are in sync with the near $50 drop in Gold Spot this week. Volume discounting is also prevalent within this segment, with much more material available on the supply side than is currently needed on the demand side. $20 Saints got hit hard since our last report, with many issues losing over $300 in MS64, for a 15% drop in Bid. A few bright spots are visible, though, with the 1922 and 1923 higher by 11% in NGC MS65. Common dates grading MS66 are also bucking the trend, up $40 from last month.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity, including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 43 | October 28, 2011 | Single copy price $4.00

Sight-Unseen Market Active Busy November On Horizon

The sight-unseen market is currently quite active, spurred on by Gold's rise to nearly $1,750. Levels this high have not been seen in five weeks. Nearly 1,000 coins have traded sight-unseen this week, amounting to over $1 million, through the Certified Coin Exchange. These transactions involved mostly generic Gold Type and common date Morgan and Peace Dollars with most Mint State grades participating.

Hawaiian Commems graded MS64 by PCGS and Bridgeports in NGC MS67 have been steady all year up until now, as the former is 5% lower while the latter are taking the hardest hit this week with a $200 drop. Silver Commems are still experiencing trials and tribulations this year, but are far from being ignored. Several major auctions in the weeks ahead will feature some important examples from this series, including some of the finest examples of Lafayette Dollars, Boone, and Booker T. Washington issues. Within Gold Commems, more disappointing auction activity for 1905 Lewis & Clark Dollars in MS66 has caused a cumulative reduction in Bid for these by as much as 22% this year.

Little, if any, drama was played out this week among generic Morgans, other than the fact that their MS64 grade columns are again laden with plus signs, adding to the mostly mild and incremental volatility this segment has been experiencing through high volume trading. The $25 difference reported last week between PCGS and NGC MS65 generic Peace Dollars narrowed considerably as Bids for those of the latter's grading service each rose to regain $15. Bids for these in MS66 are now down sharply, as the 1923 NGC MS66 issue, in particular, incurred a $130 decline receding to its level near this year's start. This is a direct result of poor retail auction performance, coupled with the absence of viable sight-unseen buyers.

PCGS graded Type I Three Cent Silvers in MS62 and MS63, as well as their Type II peers in MS64, are lower, and the latest auction results confirm this which can be seen in this week's Market columns. There is ample indication that the Mint State Type segment is still in better condition overall than most other areas. Proof Three Cent Nickels graded by NGC haven't been faring as well at recent auctions as they should have, leaving money on the table. Eager wholesale buyers are extremely visible in the marketplace, and are paying much more for this material and will take it sight-unseen. Just ship for a check. Returns are not possible. Once again, refer to the Market column this week for confirmation. The same scenario appears for Liberty Nickels in NGC PR65. Barber Quarters in PCGS PR64, along with No Cent Liberty Nickels in PR66, receded slightly despite their being in fairly short supply.

Weak internet auction results forced moderate reductions for two NGC graded Buffalos, the 1927 in MS65 and 1935 in MS67. Otherwise, this segment is quiet but stable. Among the best struck and finest known 1925-D specimens will be auctioned off by Heritage in Beverly Hills next month. This one, graded MS66 by NGC, has a combined pop of only 14 with none finer. Mercury Dimes continue to fare very well, but Bid for 1939-D issues in PCGS MS66FB receded a bit, along with 1944-D examples in MS66. Some NGC slabs grading MS66FB, such as 1943-D and 1944-D examples, are also selling at auction for somewhat below what sight-unseen Bidders are expressly willing to pay for them, as their Market columns indicate.

Sight-unseen Bids for a handful of select late-date Walkers in NGC MS63 are dropping, and Bid for 1946 issues in PCGS MS67 fell back by $50. Scarce and condition rarity issues, however, remain solid. Two very scarce NGC Walkers, a 1919-D in MS63 with CAC approval, and a 1921-S graded MS61, a coin of which there is a combined pop of just 9 in this grade and Bids sight-unseen for $10,000, are featured among several other early key-date issues that are going up on the auction block next week.

Generic $20 Saints in MS61 thru MS65 are rebounding, thanks to a significant jump in Gold Spot, up $135 per ounce from last week. But a number of fractional issues and generic $20 Libs are still succumbing to the overall weakness that continues to encompass Gold Type.

Dealers and collectors will be gearing up soon for the next round of shows. For the first time, Heritage will host a rare coin auction at their Beverly Hills location, November 8-10 (see some of the many highlights herein). The Bay State Coin Show will follow, taking place in Boston, November 10-13. Baltimore is scheduled for November 17-20, and will feature an auction by Stack's Bowers. The Santa Clara Expo runs November 18-20 in Northern California.

PCGS — Professional Coin Grading Service, Newport Beach, CA (800) 447-8848

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month; "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Get your sets ready!

THE 2011 NGC REGISTRY AWARDS

Awards presented for:
BEST COMPETITIVE SETS
BEST CUSTOM SETS
BEST COLLECTORS JOURNALS

Deadline for set registration & journal entries:
FRIDAY, DECEMBER 2, 2011

Winners announced:
FRIDAY, JANUARY 6, 2012

We're looking for the top sets in the world — and as the largest and most inclusive registry in the hobby, NGC will see thousands of world-class sets. Make sure yours are among them!

Take the honors in one of these categories and you'll receive a personalized plaque, an icon of recognition next to your set's Registry listing and up to five Deluxe PHOTO PROOF® presentations of NGC coins from your winning set. Sets must be at least 50 percent complete to be eligible.

To join the Registry or for more information about the awards, please visit www.NGCcoin.com

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 44 | November 4, 2011 | Single copy price $4.00

CC Dollars Take Off
Common Date Walkers Jump

Dealers have multiple opportunities to fill their inventories coming up this month. November holds several auctions and shows that will likely aid in filling client want lists. Precious metals have generally maintained their strength, though volatility is still present. Gold came back rather strong to close at $1,764. Silver now stands at $34.49, and Platinum is at $1,647 per ounce, still well below Gold. The sight-unseen market remains active, and there is clearly a robust rare coin market in place. Compared to a year ago, CCE's total value of transactions is up 14% for the month of October, and nearly 90% of these trades were sight-unseen.

Silver and Gold Commems have both seen worse weeks, but Bidding activity remains weak for some issues that many collectors have held in high esteem. 1934/35 Boone PDS Sets in PCGS MS65 are 6% lower, but there is an apparent appetite for Arkansas PDS Sets in MS63-MS64 graded by ANACS and ICG. The wave of declines seen last week for Gold Commems continues to spill over a bit this week to moderately reduce Bids for the PCGS graded 1917 $1 McKinley and NGC $2½ Sesquicentennial, both in the MS65 columns. For the connoisseur of high-grade Gold Commems, this could be another period for realizing opportunity than for shaking off confidence in this series.

Generic Morgan Dollars and the more common CC-Mint issues in MS61 thru MS64 are getting a good jolt of energy this week, while most issues in MS65 and better grades appear to be settling back in a very active but highly value-conscious market. Even ANACS and ICG are joining in with increased Bids for CC Dollars including the 1885-CC and 1889-CC in grades thru MS64. GSA CC Dollars have been getting a lot of attention as of late. Firstly, ANACS is now grading the original government holders and applying a tamper evident wraparound grade sticker, as NGC has for several years. Secondly, dealers are now placing Bids on Prooflike and Deep Mirror Prooflike GSA Dollars graded by NGC (see a sample of Bids below). These Bids are quite strong when compared to the same coin in regular NGC slabs, with buyers paying up to two and a half times more for MS65 DPLs in original GSA holders. All this comes on the heels of the soon to be released second edition of the book *Carson City Morgan Dollars Featuring The Coins Of The GSA Hoard.*

GSA $1	MS64PL	MS65PL	MS66PL	MS64DPL	MS65DPL
1881-CC	$700	$1,500	$1,800	$1,800	~ ~
1882-CC	$300	$500	$3,000	$700	$2,500
1883-CC	$250	$400	$1,250	$550	$1,500
1884-CC	$250	$325	$1,250	$550	$2,000
1885-CC	$800	$1,200	$5,000	$900	$4,000

Type continues to be somewhat of a haven for those who fear coin market volatility as Bids for virtually every denomination and variety remain almost entirely unchanged for the third straight week. The $10 decline for Two Cent Pieces in PCGS PR64RD is of little significance, considering how well early and obsolete denomination Coppers, both in Mint State and Proof grades, have been faring lately at major shows and auction venues. Market participants, at the very least, continue to place strong supporting Bids at or near current levels for Capped Bust, Liberty Seated, and Barber issues, as the former variety is especially sought-after in almost every Mint State and Proof grade, from Half Dimes thru Half Dollars.

Only a few PCGS graded Buffalo Nickels incurred minor downward adjustments in Bid reflecting an adequate supply in the marketplace. The popular 1937-S issue in PCGS MS65 dropped by a tad and now Bids $34 at parity with its NGC graded peer. Otherwise, Bidders appear as enthused as ever when any fresh Buffalo Nickel offerings appear. Some late-date Mercury Dimes in MS65 fell prey to discounted wholesale asking prices this week, while 1940 and 1945-D issues in NGC MS66FB are now lower by as much as 14%. Better-date Mercs, especially with FB designation, are in very short supply and only a few of the truly rare issues, such as the 1916-D and 1919-D, have appeared at recent auctions. Walkers in MS61 thru MS64 are on the upswing this week, as Bids for every late-date issue in the latter grade column, from the 1939, excluding the PCGS graded 1943-S, readjusted to higher levels. Some of these common dates are up by as much as 30% in MS63. Silver Spot, no doubt, is influential in this segment. But there is also the prospect for a greater number of new collectors entering this area, given the immense popularity of the American Silver Eagle bullion coins with their identically designed classic motif. Bids for a number of these issues in MS66 are still declining, including the NGC graded 1942-D, which is down by 13%.

As in recent weeks, there are losers and gainers again within the Gold Type Bid columns. This segment of the market remains extremely weak. Sight-unseen Bids for these Uncirculated hundred year old numismatic treasures encapsulated and guaranteed by NGC/PCGS are just barely over melt.

Doyle New York has an auction scheduled for November 7. Heritage will hold their Beverly Hills auction November 8-10. Then it's the Bay State Rare Coin Show in Boston, November 10-13. The Baltimore show follows November 17-20 with an auction by Stack's Bowers. Santa Clara is scheduled for November 18-20.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 45 | November 11, 2011 | Single copy price $4.00

Santa Clara To Hold Final Show
$6 Million So Far In Beverly Hills Debut

With the coin market as a whole generally focused on premium quality material, the sight-unseen market for average quality product is perceived to be ignored, but this is far from the case. Market-makers continue to support sight-unseen trading, although most transactions consist of common dates with over $500K in weekly transactions taking place with regularity through the exchanges.

Heritage has brought in over $6 million so far from their first Beverly Hills rare coin auction. The addition of a brand new auction without any corresponding show support demonstrates that overall demand remains strong in the rare coin marketplace. Sight-unseen trading activity, whether through internet auction or dealer-to-dealer electronic exchange, has had no real effect on Silver Commems this week. Only 1936 Oregon examples in NGC MS67 provided some positive action within this segment with a 7% gain to $375. Gold Commems are still facing challenges with NGC material taking the hits this go round. 1904 Lewis & Clark Dollars are down $125 in MS63. Both $2½ denominations hit some headwinds again, as Pan-Pacs in MS65 and MS66 mildly receded and Sesquicentennial issues in MS65 slipped lower for the third straight week to settle at a sight-unseen Bid of $2,000.

Bids for a large number of better-date Morgan Dollars in MS61 thru MS65 are on the rise, possibly a sign that such material is now seen as a good buying opportunity. While most of these gains are moderate, classic and scarce issues such as the 1886-O in MS64 advanced by a considerably greater margin to the tune of 7% for PCGS slabs. This cartwheel has a combined pop of just 287 with only 6 finer, and becomes exceedingly rare in the next highest grade with its sight-unseen Bid increasing by more than 18-fold. A few generic Prooflike Dollars are weaker, particularly the 1904-O in MS63PL thru MS65PL. Peace Dollars remain stable, with only the 1928 softening a bit in MS63.

The upcoming sale of material deriving from the Teich Family Collection next week during the Stack's Bowers auction in Baltimore will be viewed by participants, to some extent, as a gauge for the overall health of the Type market. Shield Nickels without Rays graded MS66 by NGC and Three Cent Silvers, Type III in PCGS MS65 were the only two lackluster performers during recent public auctions, resulting in a minor downward Bid adjustment for each. The Proof Type segment incurred only a minor setback as well with No Cent Liberty Nickels in NGC PR63 posting a $10 decline in Bid. Morgan Dollars graded PR64 and PR65 by PCGS scored well as those of the latter grade are Bidding at parity with their comparably graded NGC peers due to a $600 advance.

Buffalo Nickels have not been as active as other segments of the market for quite some time now. Bidding activity remains reserved but supportive at current levels for most issues, though some participants appear cautious about making overly-aggressive commitments via sight-unseen Bidding. Those 1927 issues in MS66 are now appearing to have sustenance difficulties, as Bid has receded by nearly 20% to $270 in just two weeks. This coin has a combined pop of 364 with only 15 graded higher and has sold at retail public auction for as much as $1,323 (for a plus graded MS66) and as little as $299 in the past week, both examples graded by PCGS.

A 1916-D Mercury Dime graded MS65FB by PCGS realized a respectable $36,225 during the November 8-10 Heritage Signature Auction in Beverly Hills. On-line auction sites frequently feature Merc material, but the supply of truly high grade specimens is still insufficient to meet the needs of market participants. A rather elusive issue, the 1930 in MS64, sustained a Bid decline by as much as 27% this week, while both the 1939-D and 1943 in MS66FB pulled back also, the former issue's NGC slab is now almost 15% lower.

Dealers are still offering current sight-unseen Bid for many key and semi-key date Walkers in multiple Mint State grades. Most late-date issues in MS61 and MS62 are moderately advancing from last week in reaction to quantities of unfulfilled orders. At least one dealer is actively looking for 1 of the 22 NGC Superb Gem Walkers dated 1943-S and is now paying $50 more sight-unseen, for a Bid of $1,750, to secure an example.

Gold has slipped from a six week plus high of $1,800, to close lower at $1,759 per ounce. Silver Spot, at $34.10, is down from its $35 benchmark. Bidders for Gold Type are continuing to up the ante for common $20 Libs in MS61 thru MS63 and $20 Saints in MS61 thru MS65. Even with theses increases, this entire segment remains extremely soft and many issues continue to trade at record low premiums over melt.

This busy month of November has dealers and collectors on their way to Maryland next week for the Baltimore Expo running November 17-20, with Stack's Bowers holding the official auction. The Northern California Santa Clara show is slated for November 18-20. After an unsuccessful attempt at finding a buyer, this will be the last Santa Clara show, as the out-of-state dealers purchasing tables dwindled over time. Frequent scheduling conflicts were reportedly the reason for this weakness in attendance by dealers from the east coast. Collectors Universe purchased both the Santa Clara and Long Beach Expos from Ronald Gillio in 2006. The closing of the Santa Clara show will not negatively affect the Long Beach Expo, which is next scheduled for February 2-4, 2012. In fact, according to David Hall, President of Collectors Universe, more efforts will now be directed towards the Long Beach shows.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

PROOFLIKE MORGAN DOLLARS

P.L. Dollars may be semi-reflective with less reflectivity than the deep mirror Prooflikes. Bids for P.L.s are usually much lower than for DMPL's, but command some premium over non-P.L. strikes.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Every Numismatic Library needs a complete set of the

COIN DEALER newsletter family of publications

Order Online www.greysheet.com

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter — but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - $2.50 each • 11-25 issues - $2.00 each • 26 & over - $1.50 each

Or, you can purchase ***complete sets*** of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter** (*Greysheet*)
from June 14, 1963 to December 17, 2010, now includes 2,424 issues.
At $1.50 each this would normally cost $3,636, but a complete set
is only ..... **$2,425.**

Complete set of the monthly **CDN Monthly Supplement**
(formerly the Monthly Summary)
from August 1976 to December 2010, now includes 413 issues. At $1.50
each this would normally cost $619.50, but a complete set is only .... **$480.**

Complete set of the **CDN Quarterlies**
from January 1992, to December 2010, now includes 228 issues, a
complete set is only ..... **$250.**

Combined weekly **CDN** (*Greysheet*), **Monthly Supplement & Quarterlies**
now includes 3,065 issues, and extra savings at only ..... **$3,025.**

Complete set of the weekly **Certified Coin Dealer newsletter** (*Bluesheet*)
from August 22, 1986 to December 17, 2010, now includes 1,202 issues.
At $1.50 each this would normally cost $1,803, but a complete set
is only ..... **$1,260.**

Complete set of the monthly **Currency Dealer newsletter** (*Greensheet*)
from September 1980 to December 2010, now includes 364 issues.
At $1.50 each this would normally cost $546, but a complete set
is only ..... **$430.**

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 46 | November 18, 2011 | Single copy price $4.00

CAC & Plus Slabs Now Listed
Gem Generic Morgans Drop

The Stack's Bowers auction being held in conjunction with the Whitman Coin and Collectibles Expo in Baltimore, November 17-20, is now at this market's center stage and focus. Dealers and collectors on the east coast will analyze the diverse material of virtually every denomination, grade, and variety offered. On the west coast, others are attending the final Santa Clara Expo, November 18-20.

Silver Commems of exceptional quality, especially scarcer issues with CAC approval, have done extremely well at recent auction venues. However, certain examples are still susceptible to weakness resulting from the discounted trading that now has been arising with regularity within this segment. NGC Hudson issues in MS63 and MS67, and 1936-D San Diegos graded MS67 by PCGS, had problems maintaining support again while Vancouvers in NGC MS65 and MS66 regained some strength. The Gold series neither sneezed nor sang this week, as Bid support continued across-the-board. Generic Morgan Dollars graded MS65 and a handful of slightly better dates in various grades surrendered gains achieved in recent weeks. Auction activity has not been all that strong either for many of these cartwheels, but the situation is far from the bottom dropping out from under any single issue. Early S-Mint Peace Dollars in NGC MS64, along with the 1927 and 1928, hit a bit of a bump this week, while Bids for 1924 issues in MS66 and 1934-D examples in MS65 each sustained reductions by as much as 8%.

Bidders are in hot pursuit of Early Mint State Copper, especially in grades MS61 thru MS63. Liberty Cap and Draped Bust Large Cents are particularly sought-after now, as Bids for some of this material have increased dramatically this week by as much as 50%. Some of the very scarce Mint State and Proof Type material recently sold at auction events realized very strong prices, while more commonly seen Nickel and Silver composition material fell short of expectations. There now appears to be some cash-flow and liquidity difficulties affecting the Type segment as well, and reserve-free lots have done little to lure the energetic and competitive Bidding so often seen in the past. Three Cent Nickels in PCGS PR63 and NGC PR67 are slightly weaker, but Morgan Dollars in PCGS PR64 are up again by another $200 for the second straight week as Bid for these has gained 16% since the start of the month. Buffalo Nickels are far from seeing a mass exodus of Bidders, but they have their share of minor set-backs as well. This week, Bids for the 1916-D, as well as five other PCGS graded issues, declined, albeit moderately. Two later-date favorites, the 1928 in NGC MS66 and 1937-D in PCGS MS65, are now each 5% lower.

Mercury Dimes are entering a new phase of volatility as Bidders are placing sight-unseen offers for them with seemingly greater vigilance due to mixed auction and wholesale trading results. PCGS graded 1936-S and 1939-S issues in MS67FB, as well as 1942, 1943-S, and 1944-D issues in MS66FB, all fell short at auction and are reflecting lower Bid adjustments. Some late-date Walkers in Gem are again buckling to the combination of discounted sales and lower sight-unseen Bids. This week's bout with declines also includes some of the earlier, pre-war issues such as 1936 in MS66, 1936-D in MS65, as well as 1937-S and 1939-D in MS67 all graded by NGC. PCGS decliners include the 1939 in MS65 and the 1942-D in MS66, the latter down by 20% since the beginning of this year. Despite all the doom and gloom news emanating out of Washington and Europe about global financial market instability, Gold Spot just can't seem to break through the $1,800 per ounce level again. In fact, Gold Spot dropped $54 an ounce today, resulting in lower Bids for common date Double Eagles in various grades. Several minor denominations are also lower through Gem.

The Bluesheet will now be covering CAC approved and Plus graded coins on new supplemental pages G, H and I the third week of each month. CAC, which began in late 2007, has developed a strong following over the last few years with its green and gold sticker system. Coins graded by PCGS and NGC are submitted to CAC where their quality for the grade is analyzed, and each coin is assigned an A, B, or C. A and B coins are considered solid for the grade and receive a green sticker, while coins categorized as C do not. Those coins which are deemed to be of especially higher quality than the assigned grade receive a Gold sticker. Plus graded coins from PCGS, which began in March 2010, are based on a 700 point system where those in the top three grades within the whole grade receive the plus designation. For example, a 657, 658 or 659 would grade 65+, similar to an A categorized coin. Grades MS60-MS61 are excluded from the PCGS Plus grading system as are coins below XF45 and above MS68. NGC Plus service, which began in June 2010, represents PQ quality coins as well, and designates those specimens that come close to what they consider the next highest grade.

Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

Stack's Bowers Gavels $11.7 Million Gold Type Remains Soft

Last week's Baltimore Expo concluded with most dealers returning home pleased with their results. This collector rich area provides plenty of foot traffic on the bourse, more often than not. The Stack's Bowers auction that took place November 14-19 held in conjunction with the Whitman show realized a total of $11.7 million in U.S. coin sales (see a few of the many highlights herein). Many west coast dealers attended the last Santa Clara Expo during the same week as the east coast event. Even though the show was reportedly dwindling with respect to attendance of both retail buyers and visiting national dealers, the numismatic community hates to see it end. Several have expressed their desire to see the show revived, even if held only once a year.

Extraordinarily high-quality Silver Commems are still being sought after by a devoted collector base, but the series as a whole continues to grapple with wholesale discounting and weak auction performances. This week's declines, while minor, include a number of PCGS examples, such as: Grant, Hawaiian, and Hudson issues in MS64, as well as 1920 Pilgrims in MS65. Spanish Trail and York, both of which have maintained solidity all year in NGC MS67, have each slumped by 7%. Vermont issues in the same NGC grade column are up slightly to a sight-unseen Bid of $2,000. 1905 Lewis & Clark Gold Dollars in MS65, be they PCGS or NGC graded, are now $150 lower, while all $2½ Pan-Pacs in MS65 are lower as well, with PCGS slabs reduced by $400.

Even though Two Cent Pieces in PCGS PR64RD are a bit lower this week, Mint State and Proof Coppers, from the earliest series of Half Cents to scarce and condition rarity Indian Head Cents, are eliciting spectacularly competitive Bidding activity at auctions and realizing very strong prices. Liberty Seated Quarters of the No Motto variety in PCGS MS66 were the only casualties amongst Mint State Type, incurring a $230 Bid reduction. In the Proof arena, PCGS graded Three Cent Nickels in PR63 inched back up to their Bid from two weeks prior, while Liberty Seated Quarters of the With Motto variety pulled back by 4% in PCGS PR66. One of only a dozen or so known 1921 Chapman Proof Morgan Dollars, a PCGS PR64 graded specimen, sold during the Stack's Bowers Baltimore auction for $100,625, an incredible price considering that an NGC PR65 specimen sold for $57,500 in May of 2007.

Nice, Gem quality Buffalo Nickels continue to be crowd pleasers at auction and on the bourse. However, along with 1917-D issues in MS64, 1923-S in PCGS MS63 and NGC graded 1924-D issues in MS65, all encountered some weak auction prices realized resulting in slightly lower Bids. Late-date Denver Minted Mercs in MS65FB are inching lower, while Bids for 1942 and 1942-D issues in MS66FB are mildly receding as well, as these are all being snatched up for a discount, largely by way of on-line auction activity. A pleasingly toned, CAC approved 1929-D specimen, graded MS68+ by PCGS, realized over $8,900 during the Stack's Bowers Baltimore sale last week. The Walker segment has become somewhat less agitated compared to recent weeks as only a few issues were jolted by this week's lackluster trading activity. While 1934 issues merely hiccuped in Choice, the 1940-S in MS66, along with the 1943-S in MS65 buckled to more discounting pressure, as the former issues' NGC slabs sustained a 12% decline. A number of issues sold at retail auction for less than sight-unseen Bid, as can be seen in this week's Market column. One such example is the 1944-D in NGC MS64 where 44% was left on the table.

Gold Spot has been dipping below the $1,700 per ounce mark numerous times this week, casting doubt and uncertainty as to the stability of generic Gold Type material. This market segment remains extremely soft as minus signs are becoming more prolific within this area. Some declines are quite considerable as $5 Indians in PCGS MS65, for example, are now Bid by as much as 8% lower this week, constituting a cumulative decline of $2,100 for this year. A few issues are still managing to "dodge the bullet," especially condition rarities in MS66 and MS67, as well as those in Proof grades. Morgan and Peace Dollars are mixed this week with minor advances coupled with some serious declines. One of the more noteworthy examples is the 1922-D in NGC MS67, which fell 12% from our previous report after a poor outing in Baltimore. The 1926-D graded MS65 by NGC also had a weak price realized, causing the issue to drop by $125 after selling for only $374 at auction. Visible sight-unseen buyers are in place willing to pay $500 for this coin, regardless of what it looks like.

Houston's 55th Money Show of the Southwest is scheduled for December 1-3. Heritage will hold an auction December 8-11 in New York City. Then it's the PCGS Members Only show, December 14-17, in Sin City.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing last month; "**lt**" Trade appearing last month; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 48 | December 2, 2011 | Single copy price $4.00

End Of Year Market Slowdown Gold Type Turns Around

As is often the case at year's end, the rare coin market is somewhat slower now. Dealers set their sights on the holidays and vacations. Of course, things will ramp rather quickly again as the new year begins with the big, bellwether 57th annual FUN show, scheduled for January 4-8, 2012. Heritage will host a Smithsonian benefit auction in addition to their signature and platinum night sales which include outstanding $20 Saints from the Duckor collection. Many participants believe this convention provides a pulse of the marketplace, giving both dealers and collectors some idea of what to expect for the rest of the year.

Silver Commems appear quiet on the surface this week with no real changes to report. Underlying retail auction prices realized continue to show weakness with results often below what dealers are paying sight-unseen. A few Gem examples slipping through the cracks include a PCGS Spanish Trail that realized $978 vs. $1,360 Bid; NGC Antietam which realized $477 vs. $650 Bid; Alabama in PCGS which brought $633 vs. $850 Bid; New Rochelle graded by PCGS which realized $288 vs. $380 Bid; and an NGC Spanish Trail that sold for $1,035 vs. $1,360 Bid. Many of the Oregon examples, along with Boone and Texas, graded MS64 thru MS66 by ANACS, are seeing higher sight-unseen Bids after a long dormancy. Within Gold Commems, NGC graded examples struggled again this week with a half dozen dropping. $2½ Sesquicentennials in MS65 are having a tough time keeping above $2,000 Bid, while Grant with Star slabs in MS67 sank a bit for the second straight week, with Bid now at $2,800 for this pop 100 coin. Gold Commems are one of only two segments that have a lower *CCDN Coin Market Index* since January.

If the Morgan Dollar segment is any indication of overall coin market conditions, this week certainly appears to be the beginning of the holiday recess as only a handful of issues have adjusted. Of noteworthy mention is that 1878 7TF Dollars in NGC MS64 saw a 7% reduction, and those rather ubiquitous 1880-S and 1881-S cartwheels in NGC MS67 regained some strength, but are still $50 behind comparably graded PCGS slabs. 1888 Morgans in PCGS MS66 tumbled 13% as a consequence of disappointing auction performances. This segment may get a boost from the recent national press release announcing that Art & Coin TV acquired the finest known Morgan Dollar, an 1880-S graded MS69PL by PCGS. This coin was purchased at the Heritage Pittsburgh auction in October for $86,250. Peace Dollars are somewhat mixed this week, but remain one of the top performers for the year. San Francisco entries 1923-S and 1935-S are higher in NGC MS66 and PCGS MS64 respectively. The 1923-S, with an NGC census of 1 coin with none finer, advanced by a cool $500.

Virtually all Mint State and Proof Type material is stable at current levels this week. Only No Rays Shield Nickels in NGC MS66 declined by a mere $20. ANACS graded Draped Bust and Classic Large Cents in MS63 thru MS64 made advances to remain in sync with the overall increasing demand seen as of late for Copper material. Most other Type issues in Mint State and Proof are, no doubt, maintaining their popularity, but the present market softness affecting generics is most noticeable among late 19th and early 20th century Nickel and large denomination Silver issues in particular.

This has been one of the least eventful weeks in recent months for the Buffalo Nickel segment, though Bids for those issues that underwent adjustments just a couple of weeks prior are at least holding up well at their current levels. An interesting selection of Buffalo Nickels is scheduled for auction during the Heritage New York City sale December 8-11, including a rather scarce, and the only CAC approved 1915-S in MS66, with a combined pop of 54 and only 3 finer. Some war-time dated Mercs, such as the 1939-D and 1941-D in MS65FB, as well as 1941 and 1942 issues in MS66FB, are continuing to lose steam, although Bidders are quick to gobble up such specimens when they are offered at discount.

The increased selectivity among buyers participating in the Walkers segment resulted in only a few minor adjustments. The declines are due largely to poor on-line auction results, even leaving money on the table in some cases. A 1937-D graded Gem by NGC sold for $265 in auction while a visible sight-unseen buyer is standing up waving $420 for any example of this date/grade. Among the favorites this week are examples of the 1936-S in MS61 thru MS65, which edged higher. Early, key dates remain very resilient despite some slight market softness here.

Generic Double Eagles within the Gold Type segment posted some rather dramatic Bid increases when compared to the $33 upward movement in Spot from our last report. Bids are $100 higher for MS64 $20 Saints and similar results are in place for much of the remaining issues.

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade a higher CDN Bid may be more indicative of current market value.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 49 | December 9, 2011 | Single copy price $4.00

Choice Morgans Move Higher
Page F: SLQs, Franklins & Saints Included

This has been quite an active trading year for certified coins, both generic and rare with nearly $27 million changing hands through CCE alone, compared to only $19.5 million for all of last year. This week's trades amount to more than double the average at $1.2 million, with the vast majority being sight-unseen transactions. Precious metals have been quite volatile, adding to the trading volume here. Gold set an all-time record peak in late August at $1,889 per ounce. Just 48 hours after this summit was reached, Gold saw its largest one-day drop of over $100. Silver Spot's low of the year was $26.88 in late January before hitting a high of $48.59 in April. Strangely, Platinum fell below Gold in September, where it remains today at $1,494.

Even though both Silver and Gold Commems may not always be the center-stage attraction at well-publicized auction venues, they certainly are not being overlooked by market participants who have Bids in place at or near current levels. The results for most Commems featured during this week's Heritage Signature Auction in New York attest to a support level within this segment that is far from waning. Exceptional quality specimens, especially if they are CAC approved, regardless of issue or slab, are quickly seized by anxious and enthusiastic Bidders. Sight-unseen Bidding activities are yielding mostly positive results for many cartwheels this week. Generic Morgans in MS63 are back up, flirting with the $50 mark once again, while the few issues that pulled back did so moderately. 1878-CC Dollars in MS65PL are up, as Bid for NGC slabs advanced for the second straight month, but 1879-S (Rev. of '78) issues in the same PL grade column suffered a decline of 10%. 1881-CC Morgans in MS65, which have been trading for less than what some Bidders are expressly willing to pay for them at the wholesale level, are now $20 higher. A nice scattering of plus signs throughout the Peace Dollar columns, a refreshing occurrence not seen since early September, is certainly a confidence booster for participants in this segment, even though the gains are within a 5% range.

Early Coppers are not surrendering any of their gains realized in recent weeks and are continuing to amaze crowds watching their performance at major auctions. So too are high-quality obsolete denomination issues, such as Three-Cent Silver and Nickel specimens, as well as Twenty-Cent Pieces. Bid for Liberty Seated Dollars with Motto has moved up $100 in MS62, with sight-unseen buyers willing to accept PCGS and NGC slabs. These are now on par with No Motto examples at $1,400 Bid which are nearly five times more common with a combined pop of 1,146 vs 274 With Motto varieties. Trade Dollars jumped by 4% in the same grade, now at $675 for chopmark free examples. A somewhat under-rated, low mintage 1915-S Buffalo Nickel, graded MS66 by NGC and CAC approved, with a combined pop of 54 and only 3 finer, is expected to realize a sizable sum at auction in New York this week, but nowhere near that of a 1925-S in NGC MS65, which, despite a mintage four times greater, Bids nearly five times higher and has a combined pop fewer by just 12 coins.

War-time dated Walkers in MS64, along with 1946 and 1946-D, are being discounted, now 8% lower to $57. These generics from the short-set are still well above their low of $45 for the year. NGC examples of the 1943-S in MS67 are $50 higher to a sight-unseen Bid of $1,800. NGC has graded 23 at this level, while 25 earned this grade at PCGS, with neither service grading any finer. It's been over two years since one has sold at public auction. An NGC slab received $2,530 in December of 2009, while the last PCGS example to sell, fetched $4,300 in May of the same year. Only a half dozen of the 48 graded have been approved by CAC.

Economic and monetary uncertainties in Europe, as well as those domestically, have yet to translate into a profound, decisively positive turn for the Gold Type segment. With Gold Spot trading $31 lower today at $1,710, generic Double Eagles are the most affected with a number of declines recorded, ranging from $15 to $300. 1911-D $2½ Indians in MS63 and MS65 are trading lower as Bid for those in the latter grade dropped by $5,000. A handful of plus signs are in place for Franklin Half Dollars located on Page F which will be published the second week of the month from now on. The 1952-S in PCGS MS67, a pop 1 coin, is now Bid $1,500–some 50% more than NGC where 14 have been encapsulated. Dealers will pay $100 more or $1,600 for any of the eight 1962-D Franklins with Full Bell Lines in NGC MS66.

Teletrade will hold a two-day 25th anniversary auction December 11 and 12, consisting of more than 8,500 coins valued at over $3 million. Then the PCGS Members Only show will take place December 14-17 in Las Vegas. That's about it for 2011, but soon after the New Year rings in, it'll be time for FUN. The 57th annual Florida United Numismatists convention is scheduled for January 5-8, 2012 in Orlando with an auction by Heritage.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.ccdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

CAC Celebrates 4th Year!

CAC proudly celebrates it's fourth year serving the numismatic community. Since it's birth, CAC has increased confidence in the rare coin market by setting a higher standard for grading coins. In short order, they have examined over 300,000 coins valued at $1.5 Billion while providing liquidity to the market, purchasing over $225,000,000 of coins. Imagine what lies ahead as CAC pole vaults out of infancy!

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. With CAC, only coins which meet stringent standards for quality within a grade are awarded a CAC sticker - making it easy to identify coins that are solid for the grade.

WALKING LIBERTY HALVES

CCDn does not represent that it is possible to purchase selected coins at these Bid levels. Client or sight-seen trades can be expected to occur at substantially higher levels in many cases.

CERTIFIED COIN DEALER newsletter

*CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. XXVI No. 50 | December 16, 2011 | Single copy price $4.00

CAC & Plus Move Higher
Gold Heads South

Precious metals have been quite volatile lately. Gold dropped $76 Wednesday, December 14, the third largest single day drop all year, and the fourth largest ever. Gold now stands at $1,575, a level not seen since early July. Keep in mind, we started the year with Gold at $1,423. Silver also declined dramatically, falling 10% from last week, now below the $30 level at $29.23, a low not witnessed since early February.

Teletrade's two day 25th Anniversary auction, which concluded on December 12, was abound with opportunities for the many Bidders who participated in this online event, totaling over $1.16 million (see highlights herein). Although the material was categorically and qualitatively diverse, catering to a wide cross-section of collector interests, much of what had sold fell short of expectation in terms of the prices realized. Perhaps, this served as an affirmation that the coin market is now in a general recessionary trend, and the steep drop in precious metals prices this week certainly didn't help things. A number of Silver Commems were pursued primarily by bargain-hunters who targeted examples such as the No Star Grant in MS64 and MS66 and the Maine Centennial in MS64 and MS65. The online auction activity also cast demonstrably increased vulnerability for some Gold Dollars, as the 1904 Lewis & Clark in MS65 and MS66 and No Star Grants in four grade columns all suffered additional shell-shock. But, as seen on Page G, CAC approval and Plus grading is of great benefit for many Commems with only a few declines present.

Generic Morgan Dollars graded by PCGS and NGC performed with a fair degree of resilience this week compared to the generic material comprising other sight-unseen segments. CAC approved cartwheels moved up to $160 in Gem and $375 in MS66. First-year-of-issue CC Morgans in MS66 made sky-rocketing gains, as Bids for both their PCGS and NGC slabs rose by 58% and 30%, respectively, and dealers are expressing increased demand for other early CC Dollars in various Mint State grades as well. Those in GSA boxes with certificates are especially being sought-after. Peace Dollars saw a mixture of decliners and gainers, with 1927-S issues in NGC MS65 spiking up by 7%. Dealers will pay $55, $160 and $505 sight-unseen for common Peace Dollars in MS64-MS65-MS66 with CAC approval. Type remains rather quiet this week, as Bidders continue to appear most captivated by the lore and historical significance of those early Coppers and early 19th century Proofs. However, PCGS graded Classic Head Half Cents in MS63BN took a 10% hit, while 1853-1855 Liberty Seated Quarters in PCGS MS64 sagged a bit along with No Motto Liberty Seated Halves in MS65. Type II Three Cent Silver Pieces graded PR64 by NGC declined again this week, with another $100 reduction, resulting in a 7% cumulative loss this year.

Select early-date Buffalo Nickels encountered some lackluster Bidding sessions this week during online auction activity. Most of the decliners were in the MS66 columns and included the 1913-D Type I and the low-mintage, semi-key 1915-S. Bid for 1916 Buffaloes in PCGS MS66 is now down by 13% this year, and 1924-D issues in NGC MS65 are $150 lower, while 1934 examples in MS66 suffered a pullback averaging nearly 6%. A beautiful rainbow toned 1928-S, pedigreed as part of the Yankee Collection, graded MS65★ by NGC, realized an impressive $3,220 during Teletrade's two-day special auction event. Fresh Mercury Dime material was not as prevalent as many Bidders had hoped to find at auction this week. Most Mercs, however, are holding up steadily amidst the overall market turbulence, but a few late-date PCGS issues in MS65FB are in a declining mode again, particularly the 1944-D, which is down by 16% in just three weeks.

It's not that market participants are losing their appetite for Walkers, but they apparently no longer have the stomach to devour them as they did just a few months back when Bids for so many were aggressively on the rise. Generic Walkers in MS64 that posted declines last week, especially Philly issues, are receding further just a tad again, as various others in higher grade are joining in on the slide to slightly lower ground as well. Buyers are in need of common date Walkers grading MS66+ by PCGS and are willing to pay $200 apiece sight-unseen vs. $165 for non-plus examples.

We'll need to prepare for lower Bids for virtually all Gold Type material due to the precipitous decline in Gold Spot this week. However, coherence and fundamentals dictate rationality be used through this downturn for recognizing it as opportunity for those gold bugs with patience. Much of the CAC approved and + graded Gold Type is bucking the trend with nearly two dozen increases in place.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

CAC Celebrates 4th Year!

CAC proudly celebrates it's fourth year serving the numismatic community. Since it's birth, CAC has increased confidence in the rare coin market by setting a higher standard for grading coins. In short order, they have examined over 300,000 coins valued at $1.5 Billion while providing liquidity to the market, purchasing over $225,000,000 of coins. Imagine what lies ahead as CAC pole vaults out of infancy!

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. With CAC, only coins which meet stringent standards for quality within a grade are awarded a CAC sticker - making it easy to identify coins that are solid for the grade.

CAC®

"Because Confidence is Priceless"

Looking Forward To FUN
Happy Holidays! Last Issue Of The Year

No one can deny that 2011 was a great year for the coin market. Participants are settling back now to enjoy a brief, well-deserved period of relaxation. Preparations will soon be underway for the 57th Annual FUN show in Orlando, January 5-8, with an auction from Heritage (see highlights herein). PCGS will exhibit Morgan Dollars and $20 Saint-Gaudens from their grading set, showing high-end (plus grade), mid-range, and low-end for the grade specimens. PCGS will also hold a grading contest for its members (no dealers) at the FUN show and Long Beach expos. The winner will receive a Gem $20 Saint-Gaudens.

Both Silver and Gold Commems had a most volatile but, no doubt, interesting year. Two truly eye-catching, rainbow toned Halves are up for grabs through Heritage's Platinum Night concurring with the event in Orlando: a CAC approved Delaware issue graded MS67 by PCGS, and a California example graded MS68★ by NGC. Both are among the finest known of their kind and are expected to fetch strong prices. 1948 Booker T. Washington PDS Sets in PCGS MS67 are $200 higher, ending the year with a 15% gain. Within Gold Commems, 1905 Lewis & Clark Dollars have slipped slightly lower in NGC MS63. Both better-date and generic Morgan Dollars took a break from the ups and downs this series has been subjected to throughout most of the year. A very pleasing-looking, fully lustrous 1893-S, graded MS64 by NGC, is set to be auctioned in Orlando. Bidding for this combined pop 13 cartwheel, with only 9 finer, will be competitive, to say the least. PCGS generic Peace Dollars in MS64 and MS65 persisted in their struggle with weakening demand. Still, these common dates are up this year by 23% and 9%, respectively. 1923 issues in NGC MS67 gave back 5% this week to settle in at $2,375, just $75 above their sight-unseen Bid at year's beginning. Matte Proof Lincoln Cents in PR63BN thru PR66RB are being pursued by way of higher offers.

1921	$20 Saint-Gaudens	PCGS	MS66
1930-S	$20 Saint-Gaudens, CAC	PCGS	MS66

The FUN show is an annual paradise for Type enthusiasts, and this upcoming event will surely provide ample opportunity for those anxious to fill their want lists or who just want to browse through the eye-feasting array of material on display. Buffalo Nickels remain lukewarm after a number of issues were pressured downward last week. Several better dates will cross the Florida auction block in January, including a 1918/7-D NGC MS65. The last time this pop 3 coin with none finer sold at auction, back in April of 2002, it realized over $155K as seen in this week's Market column.

Poor auction results caused Bid for 1940 Mercs graded NGC MS65FB to plummet by 25%, while the PCGS graded 1940-D in MS65FB and the 1942 in MS66FB, which lost 30% this year, trickled slightly lower again. Activity within the Walker segment appears to have hit a brick wall, but the downward corrections we've been seeing in past weeks have subsided. A beautiful and long-awaited 1921-S Walker graded MS65 by PCGS, deriving from the Dakota Collection, will be auctioned off early next month. This coin has a combined pop of 34 with only 2 finer.

As Gold Spot elevated back up to just over the $1,600 per ounce level, there is a sense that the yellow metal is in stabilizing mode following its precipitous decline three weeks ago. $20 Saints in MS62 and MS63 are lower, and are still affected by the aftershock of Gold Spot's recent tumble. These still ended the year up by 12% and 11%, respectively.

PNG is requesting pledged reward money from 57 of its members for Ken Starrett, a New Jersey dealer, whose tip to authorities led to the recovery of inventory stolen from dealer Julian Leidman's vehicle October 11, 2009 on his return from Coinfest. The actual thief or thieves have not yet been apprehended, though a culprit in the case has pleaded guilty to the sale or possession of stolen goods, December 19, in a New York federal court.

Happy Holidays from the CDN family of publications. This is the last issue of 2011; your next edition will be dated January 6, 2012. May you and your loved ones have a wonderful New Year!

NGC — Numismatic Guaranty Corporation of America, Sarasota, FL (800) 642-2646

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" - Lowest asking price during the week prior to publication (week old); "m" - Lowest asking price during the previous three weeks (month old); "t" - Trade during the most recent month; "lm" - Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CAC Celebrates 4th Year!

CAC proudly celebrates it's fourth year serving the numismatic community. Since it's birth, CAC has increased confidence in the rare coin market by setting a higher standard for grading coins. In short order, they have examined over 300,000 coins valued at $1.5 Billion while providing liquidity to the market, purchasing over $225,000,000 of coins. Imagine what lies ahead as CAC pole vaults out of infancy!

Before CAC, prices for the solid quality coins were tethered to their lesser quality counterparts, thus holding down the market. With CAC, only coins which meet stringent standards for quality within a grade are awarded a CAC sticker - making it easy to identify coins that are solid for the grade.

CAC®

"Because Confidence is Priceless"

Be a smarter *COLLECTOR.*

Now with NGC Auction Central access!

Introducing

The NGC Coin Explorer

Collectors and dealers alike will benefit from population figures, varieties, melt prices, prices realized, upcoming auction information, pricing data and overall demand — everything you need to make more informed decisions. It's the best of NGC's research tools, all on one page, and it's free!

Get started now! NGCcoin.com/Explorer

Full access to the NGC Coin Explorer, including auction prices realized requires a paid membership in the NGC Collectors Society, starting at $39 a year.
